Just remove any incorrect pictures. When pictures are correct, have the glue them into place.

4. Everyone learns and practices the first item on their partner.
5. Assign each group a letter (12 groups – would be possible to do just 11 groups and have everyone do the last step as well.). They learn and practice that item.
6. The two partners join another pair. Two do their step on the others. Then change.

(or – maybe more practical to do some/all the steps with one partner).
But, if we are going to have the real massage teacher, maybe they skip this part).
